

**Cremation Plaques
Lawn Cemetery**

In 2010, there are four double rows allocated to cremations. The rows are labeled A, B, C and D. They lie parallel to each other in north/south lines.

Row A is the furthest east and is furthest from the Orchard Street gate entry.

For all rows, odd-numbered plots face east. Even-numbered plots face west.

Numbering for both sides starts at the south end and goes north.

Numerous plots are occupied, but without a plaque.

Please refer to pp 169-176 of the "Record Bk Transcripts" to identify these.
